

Thank You for Downloading the Historic CVI Melles Griot Technical Guide

BACKGROUND ABOUT THE TECH GUIDE

Since the origin of this guide a few things have changed. CVI Laser Optics and Melles Griot separated into two companies both still within IDEX Corporation (their parent company.) Melles Griot, both laser and optics divisions, were then brought into the IDEX Health & Science brand.

Why are we providing the old guides?

The historic tech guide was used across colleges and Universities for years and we've heard the calls from professors and students alike to make it downloadable again.

We hope you find this information helpful and educational and look forward to collaborating with you in the future.

Who is IDEX Optical Technologies?

IDEX Optical Technologies is a global platform of companies with over 50 years of industry-leading experience in all aspects of engineering and manufacturing optical components and assemblies that enable our customers to bring sharper solutions to market faster. We fuel discovery and innovation with optical expertise, components, and systems that help make brilliant things happen.

[LEARN MORE](#)

Our Business Units:

Advanced Thin Films: As the recognized leader in providing spectrally complex optical components for high power laser systems, our mission is to create high-performance custom optics for your most demanding applications.

CVI Infrared Optics: We are the leading manufacturer of large visible and infrared optics that can continuously perform in extreme weather climates and harsh conditions.

CVI Laser Optics: We are the leading experts in design, fabrication, and manufacture of optical components, optomechanical assemblies, and mechanical shutters for ultraviolet, visible, and infrared system applications.
